DETAILED ACTION

Allowable Subject Matter

1. Claims 1-7 and 9-19 are in condition for allowance.
2. The following is a statement of reasons for the indication of allowable subject matter: the subject matter of the independent claim either could not found or was not suggested in the prior art. The subject matter not found was a drive mechanism device comprising a housing, dose dial sleeve, and two part piston rod comprising an outer part having a helical thread of a second lead and an inner part having a helical thread of a third lead, whereby the first lead of the thread of the sleeve is equal to the sum of the second lead of the thread of the outer part of the piston rod and the third lead of the thread of the inner part of the piston rod as claimed.
3. The closest prior art of record is Burroughs et al (6,221,046) and Schiff et al (5,800,388). Neither disclose the two part piston rod comprising the helical threads in the relation as claimed in the instant application.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
